8. OLD BUSINESS

9. PUBLIC HEARINGS

a. Special Use Permit #2026-23-SUP – Carolina Meats – *Quasi-Judicial **
Presenter: Barrett Twitty – BBR Holdings, Applicant

Attorney Wilber shared information about a Quasi-Judicial hearing and stated this hearing resembles a court trial where testimony is presented. Citizens may give testimony in a QJ hearing AFTER they have taken an oath. The Board of Commissioners acts like a court of law and receives only sworn testimony and other credible evidence. In addition, the Board must make Findings of Fact based upon the evidence presented. The Board refrains from "ex-parte communication" about these cases, as the Board must decide based solely on the evidence presented at the hearing itself.

Attorney Wilber issued the Oath to those wishing to offer testimony.

The applicant was present and shared details about the project. He stated that this is custom quality meat and will include processing, smoking and packaging of meats at this time. He did state there may

be addition of slaughter in the future.

Mr. Smith, Planning Board stated the application stated there would be no slaughter. He further added the Planning Board would have serious environmental concerns and the impact allowing slaughter may have. He further added that having allowed slaughter been a factor, it would have tipped the scales for the Planning Board. He further stated he did not believe that allowing slaughter would be of any benefit to the town.

Mayor Parnell asked if there would be sales to the public and Mr. Twitty stated he believed they would be looking to add office and retail space in the future.

Mr. Twitty stated that at the current time there was no intention of doing slaughter, however, he asked to be permitted for original use.

At this time the application for the Special Use Permit was entered into evidence as Exhibit "A".

ACTION: Accept Application as Exhibit A

Motion:	Commissioner Garcia
Second:	Mayor Pro Tem Earp
Vote:	Unanimous

At this time, Attorney Wilber issued the oath to others who wished to offer testimony.

Slyvester Dawes stated he felt the land was being contaminated.

Attorney Wilber reminded that all fact-based evidence could be considered during a Quasi-Judicial proceeding.

There was discussion about the bad smell there used to be at the facility when slaughter was happening as well as from the daily pick up of trims.

Shanice Dawes shared her concerns about the smell as well as concerns about families living nearby.

Ms. Ray also shared her concerns about the previous slaughterhouse and bad smell and concerns about the health of elderly folks living near the location.

Commissioner Worley confirmed there would be no animals on site.

Javian Dawes shared his concerns and the smells and his family's homeplace.

Doris Sims shared her concerns about traffic and odor.

Gary Wheeler stated that the applicant was a good businessperson and he spoke about the previous 3 tenants not being the best tenants. He shared information about the digestor that was used in the past. He stated there appeared to have been mismanagement in the past and asked past mistakes not to be held against the applicant.

8. OLD BUSINESS

Copper/Lead Update
Presenter: Slade Harvin, Engineer

Mr. Harvin provided an update on the Copper/Lead Project as follows:

Completed:

- Field work
- Data
- Data Added to Inventory

Next Steps:

- Inventory is in Draft Format
- Submit Inventory to State – we are ready to submit but we do have time before it needs to submitted. Slade Harvin suggests we do not submit until we have all decisions made because once we submit that "starts the clock" for next steps
- There was nothing on the town side that needed replacement
- Total of 3 resident galvanized lines will need replacement
    - 107 E. Fayetteville
    - 113 E. Main
    - Lot #25 Beulah in the Pines
- We will need to send letters letting residents know. There is required verbiage that cannot be changed and it can cause panic as it addresses "effects of lead poisoning, however we can add a cover letter to alleviate/reduce panic.

Option #1

- Submit Service Line Replacement Plan, which takes place of final report and meets all requirements. Town has until November 2027 to submit.
- Residents are responsible for cost of replacement.
    - We can work with residents
    - If no replacement takes place – we are required to send an annual letter reminding them of the issue

Option #2

- Town can apply for federal funding for replacement of lines
- Very high chance of approval
- This funding would allow us to work on private property
- May have ability to get new meters and service line to above addresses
- Would also allow town to use funds to work on our service lines
- 100% principal forgiveness
- 2% processing fee = approximately $6,000

*Average estimate cost for residents to replace their lines $1500-$2000. Only external is covered – no internal plumbing would be covered.

Following discussion, it was agreed the town would apply for federal funding.
